

IS22 MedeAnalytics Impact Summit 2022

Virtual event | September 20-21, 2022

The MedeAnalytics Impact Summit 2022 is an exclusive forum to learn, share insights and solve healthcare data challenges. We'll demonstrate how visibility and access to data from disparate systems across the enterprise can improve outcomes and reduce costs. Leading providers and health plans will share best practices on how data orchestration, analytics and AI can provide insights to help you make an even bigger impact at your organization.

Why you should attend:

- Collaborate with your colleagues on better ways to use data to improve value-based care, quality, population health, financial performance and more.
- Learn and share practical use cases leveraging MedeAnalytics offerings, data orchestration and analytics insights.
- Attend client-led sessions to learn how to optimize quality and affordability through data analytics.
- Learn more about MedeAnalytics products and partner offerings through demonstrations and educational sessions.
- Enjoy virtual networking and entertainment with peers in the comfort of your own home or office!

Save your spot for the Impact Summit TODAY!

This is MedeAnalytics' premier, invite-only event.

There is **no cost** for registration.
