

Execute on your data insights with action and accountability plans

As healthcare continues to transform, it's important to identify the long-term and short-term goals that will help you succeed. Whether you're addressing clinical, financial, operational or other objectives, your organization's ability to systematically execute on and achieve key performance targets is crucial to ongoing success.

MedeAchieve goes beyond business intelligence, dashboards and status reporting—giving you the tools to communicate, align, measure and ensure performance against your plan at all levels of the organization.

Initiatives	Metrics	Actual	Target	Leaders	% Complete	Action Steps	Target Date
1.1. Reduce Facility PMPM	Total Paid PMPM (DP) - Daily	\$97.31	\$95.00		0%	1	12/31/23
	Total Paid PMPM (PI) - Daily	\$77.29	\$75.00	TBD			
1.2. Reduce Pharmacy PMPM	Potentially Avoidable % - Daily	25.9%	45.0%		0%	1	12/31/23
	Total Paid PMPM (Pharmacy) - Di	\$23.60	\$25.00	TBD			
1.3. Reduce Professional PMPM	Total Paid PMPM (Professional) -	\$107.67	\$105.00	TBD	0%	1	12/31/23
	Services per 1000 (PF) - Daily	38.8	40.0				
1.4. Reduce Utilization	Services per 1000 (OP) - Daily	\$71.6	\$95.0		0%	1	12/31/23
	Services per 1000 (Professional) -	5,869.5	5,000.0	TBD			
	Services per 1000 - Daily	98.5	98.0				

Manage and monitor progress on goals, initiatives and action steps

With MedeAchieve, you can:

- Create and sustain an enterprise-wide culture of accountability and performance
- Easily manage complex strategic priorities and initiatives across the enterprise or at the department level
- Align strategic goals with clinical and operational initiatives
- Improve employee focus, accountability, efficiency and productivity
- Combine robust analytics with real-time action planning and progress tracking
- Measure tactical performance against key metrics
- Monitor and address performance variances
- Facilitate communication and collaboration across departments and teams
- Govern and deploy proven strategic plans with our playbook library

Why you need MedeAchieve

Many organizations fall short when it comes to creating and implementing strategic initiatives. MedeAchieve provides a closed-loop solution that integrates with our analytics solutions. This allows you to create dynamic, action-driven plans that connect to organizational goals and key performance indicators, making it easier to drive strategy execution, accountability and alignment with MedeAchieve.

Potential returns

- **5-7x** increase in achievement of target metrics
- **25-50%** reduction in labor costs associated with managing organizational performance
- **30-90%** reduction of planning and execution duration

Improve strategy execution and transparency

Align organizational goals and initiatives

Drive accountability, efficiency and productivity

Track performance to goals

Improve plan management and alignment across the enterprise

The foundation of MedeAchieve is the measurable action plan. Throughout the enterprise or at the department level, the action plan helps you clearly define, track and execute on your strategic and operational objectives. It empowers your employees—no matter their location or department—to align and track progress on their department plans and day-to-day activities with your organization's big-picture strategy.

Capitalize on cascading strategic and operational plans

MedeAchieve offers a proven action planning framework and a step-by-step approach based on best practices from more than 25 years of experience in healthcare. Plans can be easily updated, modified and evaluated from any location "through the cloud" helping you ensure that critical business initiatives are accomplished on schedule, on budget and on target. Successful plans can be stored and re-used throughout your organization using our 'playbook' functionality.

Monitor performance

Your leaders and managers need to know how the organization is tracking on its critical initiatives. MedeAchieve links KPI and analytical data with your objectives and action plans and allows for scheduled reporting across the organization to key stakeholders. With this oversight, managers can quickly modify activities to meet goals.

Maintain a single source of truth

Filtered dashboards, strategy maps, scorecards, and personalized reminders and alerts provide the tools you need to maintain a single source of truth across your organization. Dashboard data can be viewed across the enterprise or easily filtered by individual manager, strategic focus or department. Analytics let you quickly drill down to the source or action plan level to review underlying issues.

5 steps for creating a culture of accountability and performance

- **Set goals and objectives.** Determine your organization's vision and key priorities
- **Define initiatives and key performance indicators.** Assign leaders and performance metrics to meet the goals
- **Create an action plan.** Identify the activities that will ensure the KPIs are met
- **Build in accountability.** Score and report progress on action steps
- **Track progress.** Use dashboards, scorecards and alerts to monitor progress
