

Improve Outcomes with Employer Reporting Insights

In a competitive marketplace, health plans must improve transparency with employer clients and help them understand whether their efforts to keep employees healthy are working. However, it can be time consuming to aggregate disparate data, run complex analysis and address questions.

MedeAnalytics Employer Reporting enables health plans to easily share valuable cost and utilization intelligence and opportunities to fine tune programs. Health plans can demonstrate plan value by sharing detailed account and group reporting with employer clients and third-party vendors—allowing for timelier, smarter decisions.

With Employer Reporting, health plans can:

- ▶ Provide employers with an integrated view of plan performance and impacts of key programs and initiatives
- ▶ Create and auto-distribute customized, print-friendly employer reports
- ▶ Ensure internal and external stakeholders—employer groups, brokers, account managers, client consultants, third-party administrators, and providers—receive the same, correct information
- ▶ Benchmark any account against the larger plan book of business
- ▶ Track the effectiveness of stop loss offerings with an integrated stop loss module
- ▶ Ensure HIPAA compliance with role-based security
- ▶ Integrate with an existing client reporting process
- ▶ Analyze loss ratio at the individual account level

Improve client satisfaction with immediate insights

MedeAnalytics Employer Reporting offers a secure, web-based single source of truth for proactive communication of trends and key performance indicators. Account-specific, self-service analytics enables health plans to:

- ▶ View data for employers at the account, group, or subgroup levels
- ▶ Identify cost and utilization trends by line of business, region, benefit product, and more
- ▶ Collaborate and set automatic alerts around insights
- ▶ Easily drill from high level executive dashboards down to detail level for deeper insights

who.

Account managers, client consultants and analysts of health plans

what.

Offers immediate insights into the cost and quality of care of health plan members

how.

Combines deep knowledge of employer reporting with analytics and data integration expertise

why.

- ▶ Create high-impact reports quickly and efficiently
- ▶ Improve client retention and satisfaction
- ▶ Identify cost drivers in employer groups
- ▶ Make proactive, data-driven decisions to support renewals
- ▶ Access robust, interactive analyses

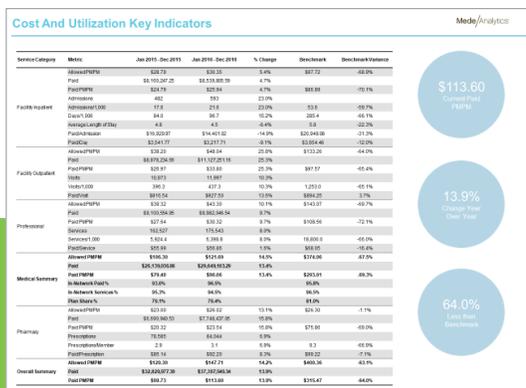

Create sophisticated, interactive reports with speed and efficiency

With Employer Reporting, health plans can view data quickly—often in 48 hours or less—and create sophisticated, interactive reports. Users can also access standard reports or customize them with any data elements for a complete view of care.

- ▶ Slice data by geography, age, gender, utilization, and more
- ▶ Access standard reports or generate custom reports on the fly
- ▶ Print, save and share reports in an intuitive interface

Generate impressive print-ready reports

Support renewal discussions and account strategies with highly formatted, print-ready reports that demonstrate the value of services. Health plans can automatically generate reports with standard data or modify the content and design to specific needs. Reports can be produced on demand or automatically on a daily, weekly, monthly, quarterly or annual basis.

Share insights through dynamic text, dashboards and granular benchmarks

ROI

- ▶ Insights shared 5x sooner than the competition
- ▶ Reports generated in 50% less time
- ▶ Ad-hoc reports generated 75% faster

case study

After eight years with an out-of-the-box legacy solution and with 15 million members, the nation's largest customer-owned health insurance company needed analytics for a large volume of analysis in one environment. Now, they generate more than 30,000 reports in just two days with Employer Reporting.
