

Improve performance against quality measures

The continued shift to value-based care has placed a greater emphasis on quality improvement across the healthcare ecosystem. Managing the data to support these initiatives can be overwhelming. MedeAnalytics Quality Management helps you deliver value, bringing plan performance into greater focus throughout the year, increasing reimbursement potential and strengthening your plan's reputation.

Quickly identify your Star Ratings based on current performance

With MedeAnalytics Quality Management, you can:

- ▶ Gain efficiency and insights into NCQA-certified HEDIS® measures as well as other quality measures
- ▶ Drill down to member-level claim detail for deeper insights and analysis
- ▶ Engage providers in year-round quality improvement
- ▶ Identify missed hierarchical condition categories (HCCs) for risk adjustment and reimbursement optimization
- ▶ Ensure timely and accurate NCQA/HEDIS® submissions

Quality directors, health plan analysts and HEDIS staff at health plans

what.

Supports quality measurement, reporting and workflow to drive change and improve plan performance

why.

- ▶ Increase efficiencies with scalable, quality reporting
- ▶ Reduce the risk of a failed audit
- ▶ Increase reimbursement rates and incentive payments
- ▶ Improve health plan rankings

how.

MedeAnalytics Quality Management delivers rich reporting, analysis and auditing to help ensure results are accurately reported.

Improve scores with effective measurement and reporting

The flexibility of Quality Management enables you to run measures according to strict national standards as well as custom and state-specific measures, including:

- ▶ NCQA HEDIS® Certified MeasuresSM
- ▶ Medicare Advantage Star Rating System
- ▶ NCQA HEDIS® Quality Benchmarks
- ▶ CAHPS® Survey Results
- ▶ AHRQ Measures

Streamline processes for ongoing improvements

Quality Management reduces the need for additional resources, enabling you to meet deadlines and achieve a high rate of compliance. You can achieve:

- ▶ Easy, efficient internal audits to facilitate the closing of gaps in care throughout the year
- ▶ Continual information gathering from clinicians (not just at audit time)
- ▶ Timely and accurate updates to compliance rates and performance metrics at any point in the reporting timeframe

Link Payer and Provider data with events reporting

Roll up all member enrollment and claims (payer) data and patient accounts and charges (provider) data into consolidated patient event records. Gain unprecedented insight with a whole new set of patient-centric reports that weren't possible before.

- ▶ Get access to a wider, more cohesive set of patient information
- ▶ Receive member data more quickly by bypassing claim lag time
- ▶ View a superset of diagnosis and procedure codes from both payers and providers
- ▶ Enable greater information sharing and collaboration between payers and providers
